DAILY CORE HABITS FOR LONG-TERM NETWORKING SUCCESS

WWW.VANESSAANNMILLER.COM

Growing your network marketing business is more than just making an income. ***It's about making an impact on the lives of the people that enter your space.***

You're making an energetic impact and soon you'll see tangible results from your efforts.

But you may have days when you feel like you can't manage marketing your business while blocking out the haters or judgey friends or family members.

I get it! I've had days like that too.

For days like these, here are some things to remember:

1. Your self-confidence is amplified by your self-love.
2. Stepping into the next level of yourself takes consistent action.
3. Your daily actions only have to make sense to you.

This download is here for you when you're feeling frustration or resistance from the usual ways that your upline is teaching you to grow your business.

Using this daily action plan for 30 days will not only transform the way you feel about growing your network marketing business but it'll also help you gain rapid trust with your customers to secure referrals and repeat sales.

Use the following tips as a guide for when you're completing your daily action plan.

<<< Show appreciation (and say thank you sincerely and often) to your community:

It could be to a new member of your team, a customer who bought your product, a mentor that helped you, or your biz bestie.

(This will serve as your daily appreciation list in action #3 below.)

<<< Connection:

Search for your ideal clients and follow, like, and comment on their social media posts. Send a DM to the people you have something in common with (lives in the same city, has a pet like you, etc.) and start a conversation with them.

(Make a list for action #4 below.)

<<< Spread your net:

Determine business owners that align with you (and your values) and connect with them. Share their posts, shout them out on your social media, and hit reply to their emails. (People don't reply to emails often, so this is a great way to stand out.)

(Make a list for action #6 below.)

<<< ASK for help:

Select mentors who can help you get further with your business. Before you ASK for help, let this person know how they've made a positive impact in your life by sending them a DM or an email. (You'll make their day.)

DAILY ACTION CHECKLIST

1

Review to-do list. Prioritize money-making activities. *(Not mindless scrolling.)*

2

Post your most important piece of content for the day. Avoid mindless scrolling.

3

Review your appreciation list and reach out.

4

Engage on 5-10 posts on social media with valuable comments + open-ended question.

5

Add new prospects to follow-up list if engagement leads to new connections.

6

Reach out to collaborate/fullfill collaboration.

7

Write out your to-do list for tomorrow.

8

Celebrate a productive day.

How are you feeling today?
